

The quality **goes in**  
before our brand  
**goes on**

# Designing the Future, Today

## Welcome To **Pioneer Engineers**

Pioneer Engineers (PE) established in 1990 as an enterprise company providing qualitative and economical cost HT, LT installations and Interiors projects to all Industries & Commercial Buildings. Quality, Commitment and Dedication are the hidden tenets to grow to a Private Limited in 2008 and now Pioneer Engineers Projects India Private Limited (PEPIPL) The head count and the turnover also grew leaps and bounds. PEPIPL is now well established Electrical & Allied Services Contractor

Our employees make difference in rendering services to the customers by virtue of their positive attitude and customer oriented with quality driven process.

Review the client feedback and attending to their needs to add value and exceed their expectations. The pursuit of outstanding qualities and commitments.

## Mission

“To create an eco friendly and pollution free environment for the present and future generations. To make sure PEPIPL plays in making this earth a safer place to live.”

## Vision

Encompassing the field of electrical installation, PEPIPL is indispensable, the valued partner and expert solutions provider to the electrical companies. This is and will be our driving principle of progress and touchstone of our success.

- To be synonymous with quality service and PEPIPL's customers' experience and reliable industry leading work exceed their expectations; and
- To be part of nation's building and be part of growth and development of infrastructure which is backbone for any nation's progress.

## Core values

Review the client feedback and attending to their needs to add value and exceed their expectations. The pursuit of outstanding qualities and commitments.

# Engineers

High Tension power transmission lines:

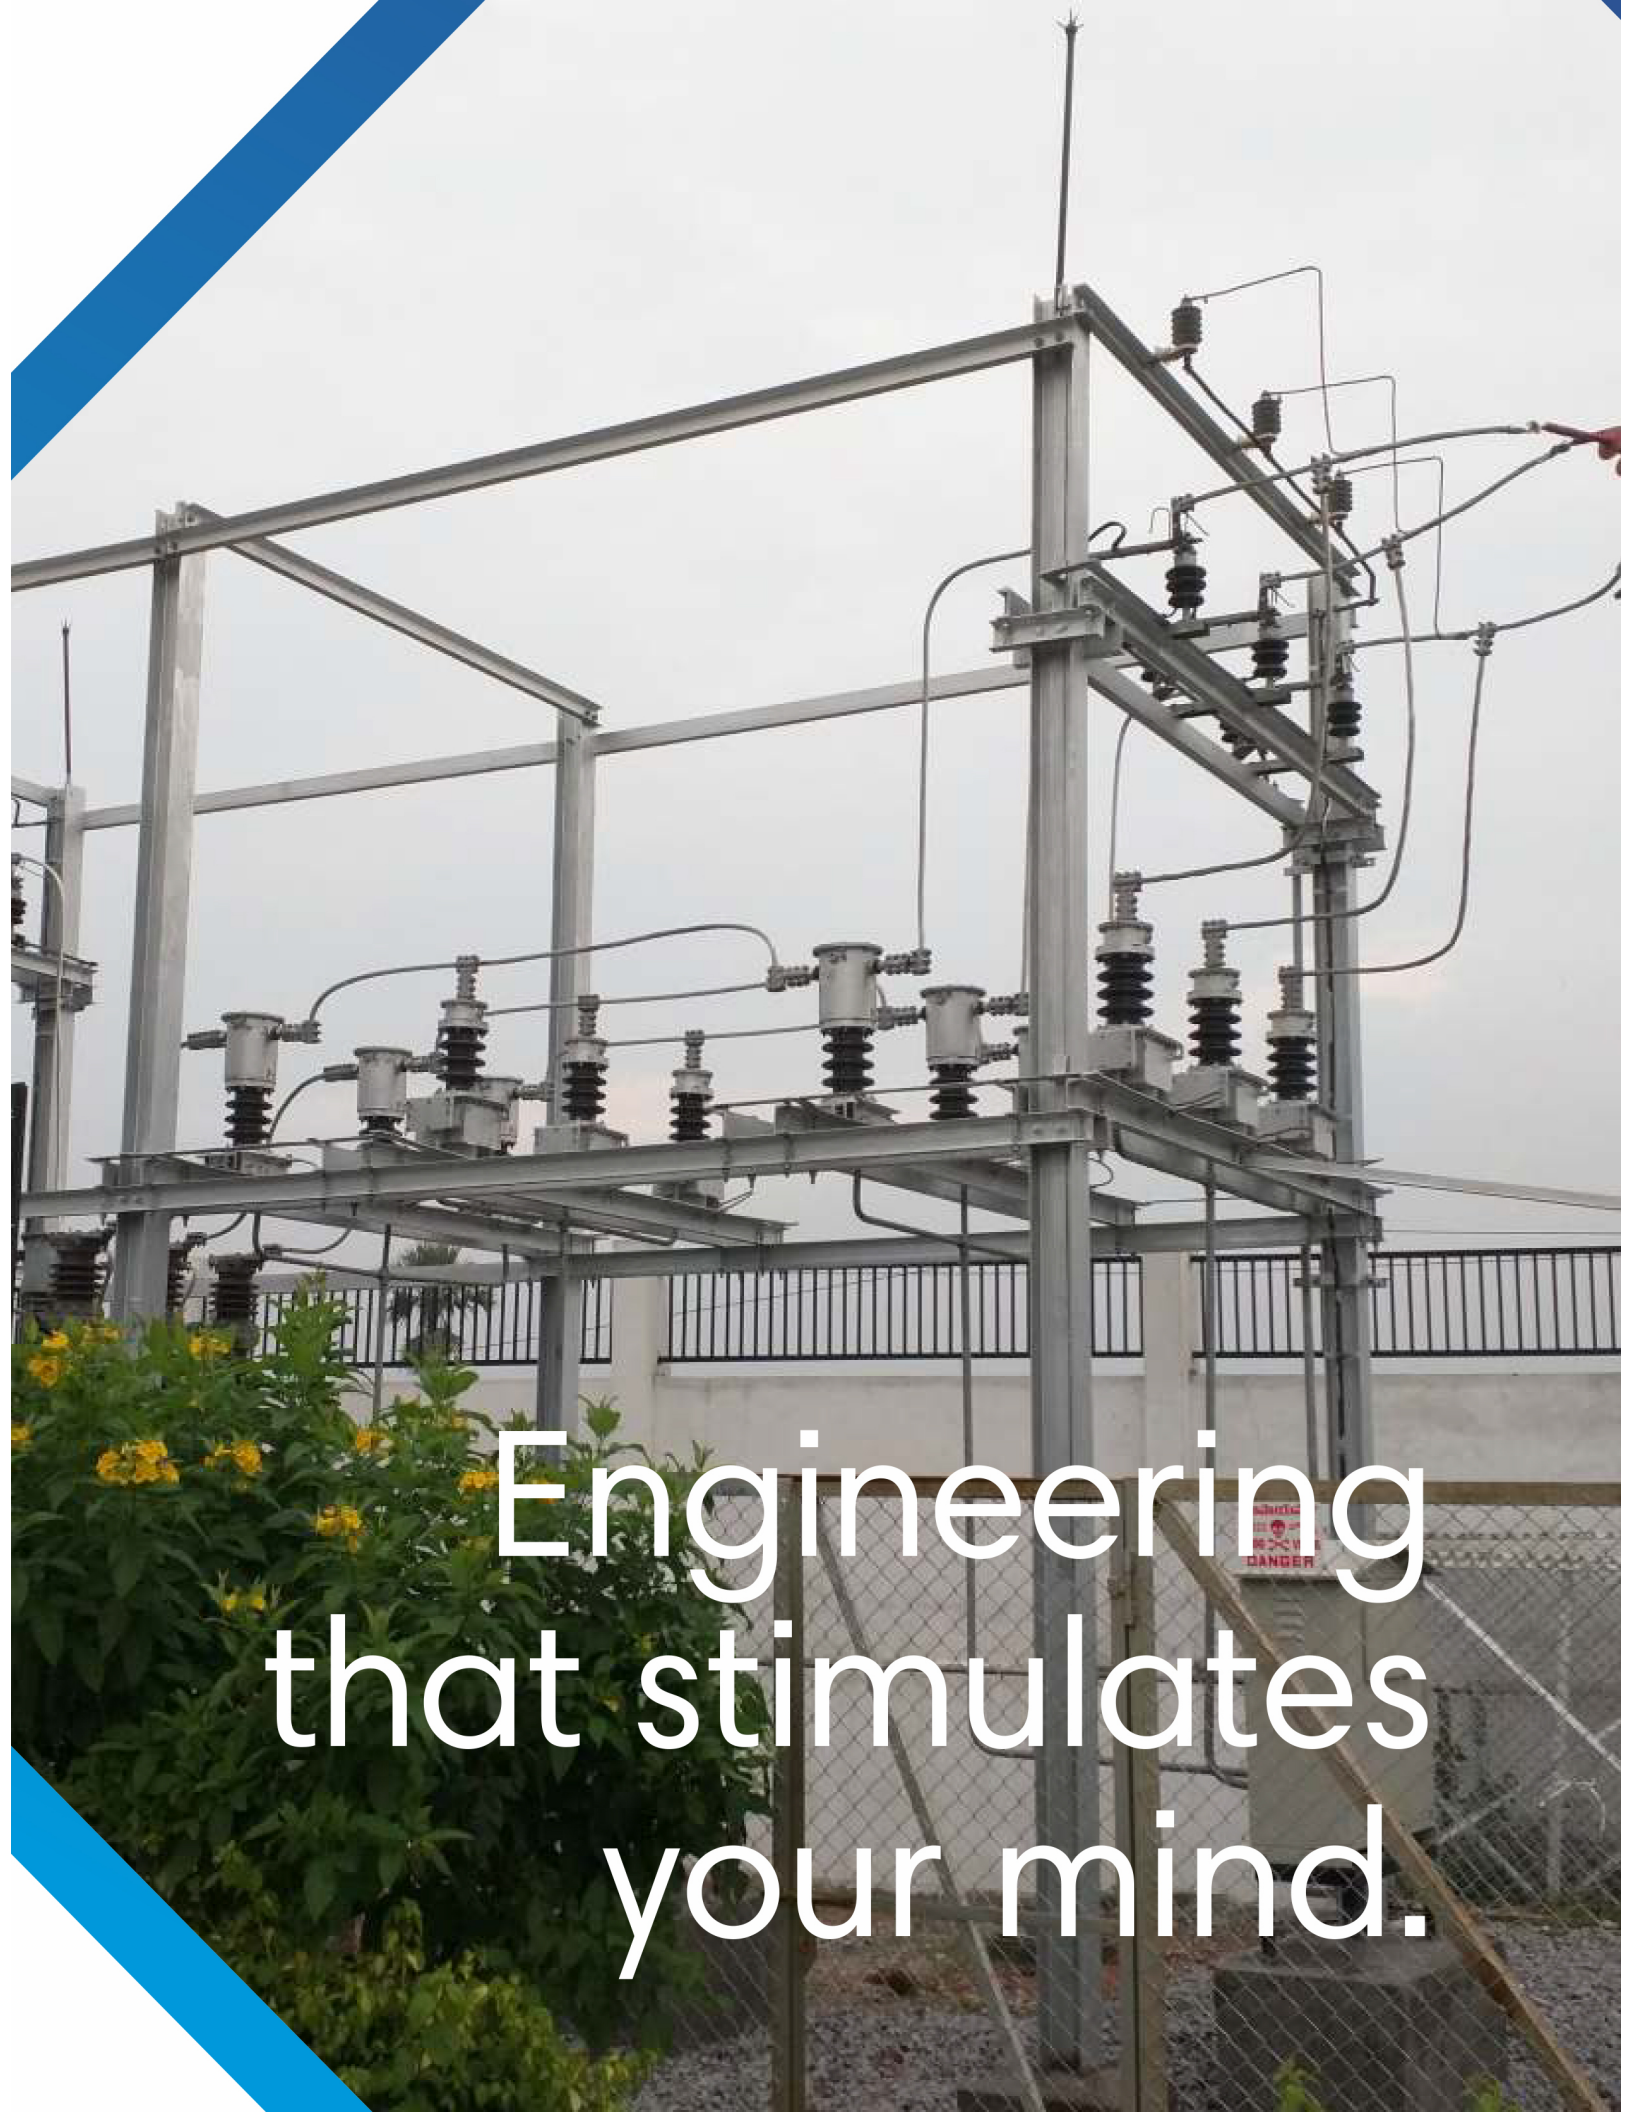

PEPIPL has recognized the importance and potential of this sector pioneered and achieved success in this high-end sector of transmission. From the outset, the design and construction of high-voltage transmission networks have been core activities in the operations of the company, and PEPIPL has been involved in every project involving major power distribution. PEPIPL has emerged as leaders in erection, execution and commission of HT works.

Low Tension power transmission:

Power is distributed to different customers through power cables that are laid according to need of that locality. Anticipating the growing demand PEPIPL ventured into this segment and has been successful through the years. Commitment to quality, sticking to time lines made us a reliable name in the field of LT works.

Engineering  
that stimulates  
your mind.

TURNKEY  
CONTRACT FOR  
GRANULES INDIA LTD

WORK DETAILS

- ◆ Supply & Erection of 33KV/433V Substation
- ◆ 33KV Line with M+6 towers
- ◆ Transformer
- ◆ HT Panels
- ◆ LT Busduct
- ◆ DG Synchronising Panel
- ◆ LT Panels
- ◆ LT Cabling
- ◆ UPS Distribution
- ◆ HT Cabling
- ◆ Internal Electrical works
- ◆ Fire Alarm works
- ◆ External Electrical works

TURNKEY  
CONTRACT  
FOR DU PONT  
( PIONEER )

WORK DETAILS

- ◆ Supply & Erection of 11KV/433V Substation
- ◆ Transformer
- ◆ HT Panels
- ◆ LT Busduct
- ◆ DG Synchronising Panel
- ◆ LT Cabling
- ◆ UPS Distribution
- ◆ HT Cabling
- ◆ Internal Electrical works
- ◆ External Electrical works

TURNKEY  
CONTRACT FOR  
GVK  
BIOSCIENCES  
PVT LTD

### WORK DETAILS

- ◆ Supply & Erection of 11KV/433V Substation
- ◆ Access Control System
